**ASSEMBLY**

**INSTRUCTIONS**

- 1 – Set leg height at 3.5" using set screws.
- 2 – Attach leg and bracket to frame using M10x35mm bolt.
- 3 – Attach handrail connector to leg, and then attach handrail to connector, both using M8x16mm bolts.
- 4 – Attach handrail bracket to the leg using M8x60mm bolts and nuts.

*Note – after ramp has been configured, tighten all bolts.*
