

# SS#230A

## Attaching Bracket for SSAA Spindles

The SS#230A consists for two sets.

Attach the spindle mounting brackets (Ref.#4) to the lower frame with 3/8" X 3-1/2" hex bolts (Ref.#1), 3/8" flat washers (Ref.#2) and 3/8" flange lock nuts (Ref.#3) as shown in drawing.

Repeat on the other end of hoist.

Note: When attaching the spindle mounting brackets, measure approximately 36" from the guide post opposite the winch end. Measure 48" from the guide post on lower frame on models 6,000 lbs. and above.
