

## STORAGE CUBE

---

### SPECIFICATIONS

---

**Material/Composition:** High-density polyethylene resin and ABS hatch.

**Available colors:** Beige and Grey

**Needed tools:** G2 key for pin, and #2 Philips head screwdriver

### SKU NUMBERS

---

STORAGE CUBE G2 BEIGE: C03-000010

STORAGE CUBE G2 GREY: C03-000009

### ASSEMBLY PROCEDURE

---

See the regular CUBE assembly procedure.

### NOTICE

---

- Note the orientation of latch for product ease of use.

To prevent the seal/gasket's premature wear, the pivoting handle is not tightened when items are shipped. A Philips head screwdriver is required to tighten the handle in place. Open the hatch, and the screw is underneath the handle. Make sure the handle can still move freely while compressing the seal.
