

## VERTICAL BUMPER

---

### SPECIFICATIONS

---

**Material/Composition:** Aluminum and PVC extrusion

**Available colors:** White

**Needed tools:** 1 1/8" ratchet socket and wrench

**\*Bolt for cube and nut NOT included.**

### SKU NUMBER

---

VERTICAL BUMPER: C03-000026

### ASSEMBLY PROCEDURE

---

Insert the VERTICAL BUMPER onto the "pre-installed" BOLT FOR CUBE and NUT assembly using the provided hardware (bolt, washers, and nut). Secure by firmly tightening the nut onto the bolt.

### TIPS

---

The VERTICAL BUMPER is ideal when a Pontoon-type boat is moored alongside a Candock. It provides optimal protection for the Pontoon's round-shaped tubes.
